

## Scarecrow Motion Activated Sprinkler Deer Chaser

Pets and pests will steer clear when you've got this sprinkler system standing guard over your yard or garden. A built-in motion detector automatically triggers the sprinkler head to give an unwanted intruder a wet scare that's sure to make them think twice about coming around again.

Finally an ecologically friendly, humane way to keep nuisance, pest and other unwanted animals out of your garden! Cats, Dogs, Deer, Rabbits, Crows, many other birds and animals! The Scarecrow is the smartest scarecrow ever invented. When it sees an intruder it instantly releases full garden hose pressure towards the trespasser. The effect is both startling and immediate! Animals quickly get out of the area and avoid it in the future.

- Motion activated sprinkler instantly releases a short but startling burst of water when it detects an animal, scaring it away
- Humane, safe and environmentally friendly
- Uses only a small amount of water each time
- Highly sensitive motion detector senses large and small animals
- No chemicals, shocks or unsightly, costly fences or barriers
- Smart circuitry automatically dampens sensitivity in windy conditions to reduce false triggering
- Works day and night for up to 4 months on a single battery
- Each units covers approx. 1,200 sq. ft.
